Technology Acceptable Use Policy

Washington County School District - Approved 9-14-04; Revised 8-12-08; Revised 9-9-08; Revised 9-8-09; Revised 10-11-11

1. Purpose

The purpose of this policy is to ensure appropriate, responsible, ethical and legal access and use of computers, the Internet, and other electronic or communication devices by District students, patrons, and employees. The Technology Acceptable Use Policy addresses two distinct concepts of technology use. The first regards the use of computers and the Internet, and the second addresses interfering and electronic communication devices.

2. Policy

2.1. Computers and the Internet

It is the policy of the Washington County School District to permit students, patrons, and employees to have computer and Internet access under approved regulations and guidelines, to include those listed in the Children's Internet Protection Act, State Law, and policies adopted by Board of Education. In general, the user's responsibilities require responsible, decent, ethical, polite, efficient, and legal use of computer and network resources. Students, patrons, and employees must not access obscene, pornographic, or material that is deemed to be harmful to minors. District and school personnel will instruct students and staff on acceptable use of computers and Internet resources and proper network etiquette. All students, patrons, and employees are granted access to the Internet, but all access to the Internet through district resources is subject to the terms of the Technology Acceptable Use Agreement and District policy.

2.2. Interfering and electronic communication devices

While in some instances the possession and use of electronic communication devices or other devices or objects by a student at a school may be appropriate, often the possession and use of such devices or objects by students at school can have the effect of distracting, disrupting, and intimidating others in the school setting and leading to opportunities for academic dishonesty and
