Dated this ____ day of _____, 200__ Parent or Legal Guardian _____

This form must be completed and submitted to the Washington County School District prior to January 31st for the following school year. Any falsification of the above information will result in cancellation of a transfer permit.

Application accepted rejected If rejected, reason for rejection: _____

Signed _____
Administrator of Elementary/Secondary Ed. School Principal

R277-437-3. Local School Board and District Responsibilities.

9. Prior to November 30 of each school year a local board shall announce policies describing procedures for students to follow in applying to attend schools other than their respective schools of residence, and designate which schools and programs will be available for open enrollment during the coming school year.

(1) A local board shall designate each school which has a projected daily membership below the average daily membership threshold as available for open enrollment, and may designate schools as available even though projected daily membership exceeds threshold levels.

(2) If construction, remodeling, or other circumstances beyond the control of the board do not reasonably permit the board to make sufficiently accurate enrollment projections for a given school to determine whether the school should be designated as available for open enrollment for the coming year, the board shall permit submission of enrollment applications for that school during the application period and notify applicants that approval will be delayed until additional information is available.

(3) Whether applications are received for schools designated as open, or for schools for which the local board was unable to make a designation, the board must give applicants written notification of acceptance or rejection of their applications by March 1 (for new nonresident students) or March 15 (for current nonresident students).

B. As required under Subsection 53A-2- 210(2), a resident district shall pay to a nonresident district one-half of the resident district's residual per student expenditure for each resident student properly registered in the nonresident district.

C. A district shall allow an enrolled nonresident student to remain enrolled in the district, subject to the conditions noted under Subsections 53A-2-207(6) and (7), provided:

(1) if a nonresident student is to be excluded from continued enrollment in a school because current or projected resident student enrollment meets or exceeds maximum school capacities, and there is another school which the student could attend within the district which has not reached maximum enrollment, the nonresident student shall be given the opportunity to enroll in that school.

(2) nonresident students who must be relocated under Subsection (1) due to increased enrollment of resident students, and siblings of nonresident students who are currently attending a school within the district, shall have priority in enrollment over other nonresident students who are seeking enrollment in the district for the first time.

(3) a school district may designate the schools which students shall attend as they move from elementary school to middle school to high school. Attendance at a specific elementary, junior high or middle school does not guarantee attendance at a specific junior high or high school.

D. Each local board shall establish a procedure to consider appeals of any denial of initial or continued enrollment of a nonresident student under Subsection 53A-2- 209(1).

E. A local board of education may limit open enrollment options when they negatively affect the capacity, programs, class size, grade levels or school buildings of the resident or the receiving school.
