- The form asks for a signature allowing the school district to publish the individual's cell phone number.
- The reimbursement equates to \$40.00 per month but is paid in a quarterly sum of \$120.00
- District reimbursement is a stipend to assist in the payment of that cell phone not to exceed \$120.00
- If the cell phone invoice exceeds \$120.00 then the individual is personally responsible for the balance due.
- Additional reimbursement <u>should not</u> be requested from other sources such as the elementary or secondary school budgets from the site where the individual works.
