## After School Theater Approval Process

*WCSD After School Theater Approval Process - Approved 9/15/23*

---

### After School Theater Approval Process

Washington County School District believes the students in the District should experience quality dramatic productions. The Board recognizes that school drama productions are an extension of the state core curriculum as well as national standards, and enhance students' understanding and interpretation of the world around them. To assure that age-appropriate material is performed and/or produced in District schools, WCSD authorizes the establishment of a Drama Production Selection Committee according to the guidelines established below:

1. District Drama Production Selection Committee is to be established at the District level. This committee will screen productions that will be presented within the school programs in Washington County School District.
2. A Local Drama Production Selection Committee is to be established at the local school level. This committee will screen productions to be presented within the school program and recommend productions which are not on the District approved list to the District Drama Production Selection Committee.
3. Refer to WCSD Policy 4212 for guidelines.

WCSD Request for Approval of Drama Production
