Drug-Free Workplace and Reasonable Suspicion

*Drug & Alcohol Screening and Drug-Free Workplace Policy for WCSD Employees (Approved 6-8-04);
Revised 8-9-22*

1. Purpose

With this policy the District affirms a commitment to maintain a Drug-Free Workplace and establishes conditions under which the District will conduct testing of employees based on reasonable suspicion that the employee has violated this Policy and is under the influence of alcohol, intoxicants, illegal or misused prescription or over-the-counter medications.

2. Policy

2.1. Drug-Free Workplace

2.1.1. Because of the special role the school system plays in discouraging students from using controlled substances, it is the policy of the Washington County School District that employees are required to refrain from illegally using, possessing, manufacturing, dispensing, or selling controlled substances (drugs) in their private lives. Further more, employees of the District must be free of the influence, use, possession, selling and dispensing of drugs and alcohol while on duty or on School District property. No employee shall report for work, including assignments to supervise students on or off-campus, school-sponsored activities, or events after/before school hours, impaired or otherwise adversely affected by any drug that is legal or illegal. "Impaired" means under the influence of a substance such that the employee's motor senses (sight, hearing, balance, reaction, reflex) or judgment either are or may be reasonable presumed to be adversely affected. No employee at any District facilities, schools, or grounds may possess any quantity of any substance, legal or illegal, which in sufficient quantity could cause impaired performance, except for authorized substances. "Possess" means to have a drug or drugs either in or on an employee's person, personal effects, motor vehicle, tools, and areas entrusted to the employee such as desks, files and company vehicles.

2.1.2. Any employee who has a substance abuse or alcohol abuse problem is encouraged to obtain assistance for the employee's problem by admission to a drug or alcohol abuse

treatment program. Employees are strongly urged to seek such assistance before their problem becomes a matter of public knowledge or has affected his or her ability to effectively perform his or her job responsibilities. The Human Resource Director can provide an employee with information on substance abuse treatment options upon request. The District will not excuse a violation of this policy based on the employee's intent to seek the assistance of a treatment program.
