1. Purpose:

The purpose of the formal educator evaluation system of the Washington County School District (referred to as District in this policy) is to ensure that the best possible instruction and learning are accomplished and to provide feedback to the educator in order to promote professional growth in conjunction with the educator's plan for professional development. The evaluation process is also intended to establish behaviors that contribute to student progress.

2. Policy

The Washington County School District Board of Education understands the importance of guaranteeing that every child has an effective educator. Research shows that educator quality affects student achievement greater than any other school-based variable. It is the policy of the Washington County School District to focus on preparing, recruiting, and retaining quality educators as primary strategies to boost academic achievement. By linking educator evaluation with academic standards for students and professional standards for educators, the District intends to transform educator evaluation into a more effective tool for improving instructional practice and raising student achievement.
