Title I, Part A Comparability Policy

Washington County School District - Approved 5-12-2025

Washington County School District (WCSD) is committed to ensuring that all students receive a high-quality education, regardless of the Title I status of their school. WCSD will allocate state and local funds to its schools in a manner that does not take into account the Title I funds that a school receives. WCSD will have a district-wide salary schedule. WCSD will also ensure that the staffing and instructional resources in its Title I schools are comparable to those in its non-Title I schools.

Washington County School District staffing and funding procedures will ensure compliance with this policy.
